To replace the text of Article 8 with the following text:
“The general meeting, deliberating in accordance with the rules applicable for the amendment of the articles of association, may increase or reduce the share capital.

A. Capital increase
(i) Capital increase by contribution in kind

The shares that are subscribed to in cash, are first offered to the shareholders, in proportion to the part of the share capital that their shareholding represents, during a period of at least fifteen days from the day of the opening of the subscriptions. The board of directors determines the subscription price against which, and the period during which, the preferential subscription right can be exercised.

Without prejudice to the application of Articles 592 to 598 of the Belgian Companies Code, the preferential subscription right can only be withdrawn or limited, in the context of a capital increase by contribution in cash by resolution of the general meeting or in the context of the authorized capital as provided in Article 9 bis of these articles of association, if an irreducible

allocation right is granted to the existing shareholders upon the allocation of the new shares.
This irreducible allocation right should meet the modalities and conditions imposed by the Royal Decree of 10 July 2016 on public privaks.

Without prejudice to the application of Articles 595 to 599 of the Belgian Companies Code, the irreducible allocation right should not be granted in the context of a contribution in cash with limitation or withdrawal of the preferential subscription right as a supplement to a contribution in kind in the context of the payment of an optional dividend, to the extent such dividend is made payable to all the shareholders.

(ii) Capital increase by contribution in kind
Capital increases by contribution in kind are subject to the rules set out in Articles 601 and 602 of the Belgian Companies Code. Moreover, according to the Royal Decree of 10 July 2016 on public privaks, the following conditions must be complied with in case of the issue of securities against contribution in kind:

1° the identity of the contributor must be mentioned in the special report of the board of directors and in the convening notice of the general meeting called for the purpose of the capital increase;

2° the issue price may not be lower than the lowest value of (a) a net asset value which dates from maximum four months before the date of the contribution agreement or, at the option of the company, before the date of the notarial deed of the capital increase, and (b) the average closing price of the shares during a period of thirty calendar days prior to aforesaid date;

For the application of this point 2°, it is allowed to deduct from the amount in point (b), an amount that corresponds to the part of the undistributed gross dividend to which the new shares are possibly not entitled, to the extent that the board of directors explicitly motivates the deductible amount in its special report and explains the financial conditions of the transaction in its annual financial report;

3° except in case the issue price, as well as the modalities, are determined in the contribution agreement and disclosed to the public with an indication of the period of time within which the capital increase will effectively be performed, the notarial deed of the capital increase shall be executed within a maximum period of four months; and

4° the special report of the board of directors must clarify the impact of the proposed contribution on the situation of the existing shareholders, in particular with respect to the distribution of the profits, in the net asset value and in the capital as well as the impact on the voting rights.

The aforementioned conditions are likewise applicable to the mergers, demergers and equivalent transactions within the meaning of Articles 671 to 677, 681 to 758 and 772/1 of the Belgian Companies Code, it being understood that in such cases:

- the “issue price” mentioned under point 3° refers to “exchange ratio”; and
- the “date of the contribution agreement” refers to the date on which the merger or demerger proposal is filed.

The contributions in kind also include the contribution of the dividend claim in the context of a distribution of an optional dividend, with or without an additional capital increase by contribution in cash. The aforementioned conditions do however not apply to the contribution in kind in the context of the distribution of an optional dividend, to the extent that such dividend is made payable to all shareholders.

(iii) Common provisions
The board of directors determines the issue conditions of the new shares for each capital increase, except in case the general meeting would otherwise determine. Without prejudice to the applicable regulations and the other provisions of these articles of association, the general meeting and/or the board of directors can decide to determine the issue price of the new shares at an amount that is lower than the stock price of the shares on the date on which the issue price is determined.

The shares issued in the context of a capital shall always be ordinary shares. Should the general meeting and/or the board of directors decide to require the payment of an issue premium in the context of a capital increase, such premium must be booked on a non-available account which may only be decreased or disposed of by a resolution of the general meeting in accordance with the attendance and majority requirements for an amendment of the articles of association.

The issue premium shall serve as a guarantee to third parties to the same extent as the share capital.

B. Capital decrease

The board of directors can also decide to increase the share capital by issuance of convertible bonds or warrants in accordance with applicable regulations and the articles of association of the Company.

In the event of a capital increase, the board of directors may limit or withdraw the shareholders’ preferential rights in accordance with the limitations set out in article 9 of the articles of association.

The board of directors is also authorized to carry out all transactions set forth in article 605 of the Belgian Companies Code in accordance with the applicable regulations.

If the board of directors requests the payment of an issue premium in the context of a capital increase, such premium will be booked on a non-available account, called “issue premium”, which will serve as a guarantee to third parties to the same extent as the share capital and which, without prejudice to incorporation in the share capital, may only be decreased or disposed of by a resolution of a shareholders’ meeting taken in accordance with article 612 et seq. of the Belgian Companies Code.

If the board of directors requires the payment of an issue premium, only the amount of the actual capital increase will be deducted from the balance of the amount of the authorized capital.
