You are about to purchase a product that is not simple and may be difficult to understand

What is this product?

Type

Quest for Growth is a public alternative investment fund (AIF) in unlisted companies and growth undertakings, an investment company with fixed capital (a "privak") under Belgian law, which has issued ordinary shares that are quoted on Euronext Brussels and class A and class B shares that are not quoted. The company is managed by Capricorn Venture Partners NV, a management company of alternative institutions for collective investments. The ordinary shares can be bought and sold on any trading day. Quest for Growth has an indefinite duration.

Objectives

Quest for Growth has as objective the collective investment in permitted financial instruments issued by unlisted companies and growth undertakings in order to thereby realise capital gains that are paid in the form of dividends to its shareholders.

The diversified portfolio of Quest for Growth chiefly comprises investments in listed companies with a small or mid-sized capitalization (small & mid caps), unlisted companies and venture capital funds, mainly in the ICT, health-tech and cleantech sectors. Quest for Growth's quoted portfolio is actively managed by the management company and includes mostly shares in companies with small and mid-sized capitalizations. The preference lies in long-term investments in growth companies with an attractive valuation. In general balanced diversification among the various industries is a goal. The management company is free to make investment decisions within the objectives and the investment policy.

Quest for Growth can borrow up to 10% of its equity, will not borrow or loan securities and only make limited use of derivative (financial) instruments, techniques or structures such as options, warrants or futures.

The prospectus of Quest for Growth is available on the website of Quest for Growth.

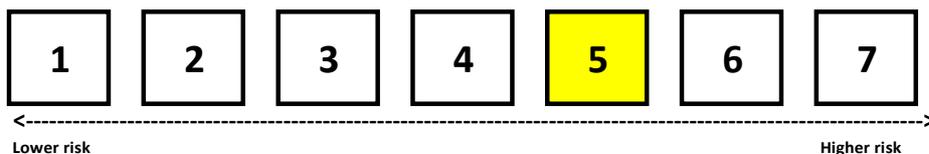

Intended retail investor

An investment in this product is especially suitable for investors:

- who are willing and capable of taking the risk of (considerable) depreciation of the investment;
- who have a reasonable experience in investing;
- who do not need any income from this investment;
- who plan to hold their investment in Quest for Growth for at least a period of 5 years.

What are the risks and what could I get in return?

Risk indicator

The risk indicator assumes you keep the product for 5 years.

Key Information Document

- The summary risk indicator is a guide to the level of risk of this product compared to other products. The indicator shows how likely it is that the product will lose money because of movements in the markets or because we are not able to pay you.
- The actual risk can vary significantly if you cash in at an early stage and you may get back less.
- You may not be able to cash in early. You may have to pay significant extra costs to advisors or distributors to cash in early.
- We have classified this product as 5 out of 7; that is a medium-high risk class.
This rates the potential losses from future performance at a medium-high level, and poor market conditions will likely impact our capacity to pay you a dividend or your capacity to sell the product easily.
- This product includes certain risks that are inherent to the investment policy of Quest for Growth. The evolution of the value of the product is uncertain and depends among others on the evolution of the underlying investments and the volatility of the markets. The financial risk of the product always lies with the investor.
- This product does not include any protection from future market performance so you could lose some or all of your investment.

Performance Scenarios

Investment	€ 10,000	If you sell after 1 year	If you sell after 3 years	If you sell after 5 years
Scenarios				Recommended holding period

Stress scenario	What you might get back after costs	1,782€	2,478€	1,508€
	Average return each year	-82.18%	-25.07%	-16.98%
Unfavourable scenario	What you might get back after costs	8,955€	9,971€	11,760€
	Average return each year	-10.45%	-0.10%	3.52%
Moderate scenario	What you might get back after costs	11,590€	15,542€	20,841€
	Average return each year	15.90%	18.47%	21.68%
Favourable scenario	What you might get back after costs	14,956€	24,155€	36,824€
	Average return each year	49.56%	47.18%	53.65%

- This table shows the money you could get back over the next 5 years, under different scenarios, assuming that you invest EUR 10,000 once.
- The scenarios shown illustrate how your investment could perform. You can compare them with the scenarios of other products.
- The scenarios presented are an estimate of future performance based on evidence from the past on how the value of this investment varies, and are not an exact indicator. What you get will vary depending on how the market performs and how long you keep the investment/product.
- The stress scenario shows what you might get back in extreme market circumstances, and it does not take into account the situation where we are not able to pay you.
- The figures shown include all the costs of the product itself but may not include all the costs that you pay to your advisor or distributor. The figures do not take into account your personal tax situation, which may also affect how much you get back.
- Your maximum loss would be that you will lose all your investment.

What happens if Quest for Growth is unable to pay out?

This product is not covered by a compensation or guarantee scheme for investors. This means you could lose your whole investment.

Key Information Document

What are the costs?

The Reduction in Yield (RIY) shows what impact the total costs you pay will have on the investment return you might get. The total costs take into account one-off, ongoing and incidental costs. The amounts shown here are the cumulative costs of the product itself. The figures assume you invest EUR 10,000.

Costs over time

The person selling you or advising you about this product may charge you other costs. If so, this person will provide you with information about these costs, and show you the impact that all costs will have on your investment over time.

Investment	€10,000	Sale after 1 year	Sale after 3 years	Sale after 5 years
Total costs		182€	546€	910€
Impact on return (RIY) per year		1.82%	1.82%	1.82%

Composition of costs

This table shows the impact on the return per year.

One-off costs	Entry costs	0%	Quest for Growth does not charge any costs when entering your investment.
	Exit costs	0%	Quest for Growth does not charge any costs when exiting your investment.
Ongoing costs	Portfolio transaction costs	0.13%	The impact of the costs of us buying and selling underlying investments.
	Other ongoing costs	1.69%	Costs for managing Quest for Growth.
Incidental costs	Performance fees	-	Quest for Growth does not charge any performance fee.
	Carried interests	-	Quest for Growth does not receive carried interests. The unquoted class A and class B shares are entitled to a preferential dividend. This does not apply to the quoted ordinary shares for which this key information document was drawn up.

How long should I hold it and can I take money out early?

Recommended holding period: minimum 5 years

Given the nature of the underlying investments of Quest for Growth and its objectives, a minimum holding period of 5 years is recommended.

You can sell your quoted shares on any trading day. Given the structure of Quest for Growth (quoted shares), you will not pay any compensation and/or sanctions to Quest for Growth when selling your shares in Quest for Growth (early). This does not include costs which you possibly pay to your advisor or distributor.

How can I complain?

Should you have complaints about the product, the manufacturer of the product, the advisor or seller of the product you may report your complaint as follows:

- you can call us at the number +32 (0)16 28 41 28 to report your complaint
- you can send your complaint by e-mail to quest@questforgrowth.com
- you can send a letter to Lei 19, bus 3, B-3000 Leuven f.a.o. Quest for Growth NV
